¹ Number of Additional Backlog Cases Added was determined by subtracting the number of SRS dispositions from the number of SRS filings for the quarters ending September 30, 2006 through June 30, 2011.

² Clearance Rate was determined by dividing the number of SRS dispositions by the number of SRS filings for the quarters ending September 30, 2006 through June 30, 2011.

Note: The backlog of mortgage foreclosure cases was significantly reduced during the year-long initiative. With more than 200,000 cases disposed, the backlog fell from more than 462,000 cases to under 261,000 cases. The clearance rates, as can be seen above, jumped dramatically during the initiative.

It is important to note that beginning in the second quarter of the year, the number of cases disposed decreased significantly and that trend continued for the rest of the year. However, this was due in large part to the voluntary moratorium imposed by some of the major lenders in Florida. In addition, it was reported that almost half of scheduled hearings were cancelled due to the voluntary moratorium in late 2010.

It is also important to note that half of the total cases disposed during the year were dismissed. Dismissals, which can occur for a number of reasons, may take place after a hearing by a judge, at the request by the plaintiffs' attorney or following a review by a case manager. Variances in case management practices may influence which cases are scheduled for hearings, which would affect the number of dismissals and summary/final judgments.

¹ Real Property/Mortgage Foreclosure Backlog as of June 30, 2010 was determined by subtracting the number of SRS dispositions from the number of SRS filings for July 1, 2006 through June 30, 2010.

² Initiative Dispositions are based on data that is provided to the OSCA on a monthly basis by each trial court. First, second, third, and fourth quarter data are the reported information on cases disposed using the new resources. Total represents the sum of the first, second, third, and fourth quarters. In addition, Desoto County and Okeechobee County did not receive Foreclosure and Economic Recovery funding and are not included above.

³ Balance of Backlog After FY 2010-11 Initiative was determined by subtracting the Total FY 2010-11 Initiative Dispositions from the number of Real Property/Mortgage Foreclosure Backlog as of June 30, 2010.

¹ Type of Dispositions are based on the initiative data that is provided to the OSCA on a monthly basis by each trial court. These data represent the reported information on cases disposed from July 1, 2010 through June 30, 2011 using the new resources. In addition, Desoto County and Okeechobee County did not receive Foreclosure and Economic Recovery funding and are not included above.

² Other is used to report cases disposed when they are: administratively dismissed, consolidated into a primary case, transferred or have a change of venue, etc.

Note: Numerous methods are used by the circuits to calendar real property/mortgage foreclosure cases which could affect the number of dismissals and summary/final judgments within a circuit. These methods are: 1) following a review by a case manager; 2) at the request of the plaintiffs' attorney; and 3) after hearing by a judge. The majority of circuits calendar hearings following a case review by a case manager. These cases are calendared for either a case management or lack of prosecution hearing. A number of circuits also calendar cases at the request of the plaintiffs' attorneys. These cases are either calendared based upon the request alone or based upon the request and assurance that the case meets the threshold for a summary/final judgment.

¹ Cases Status is based on the initiative data that is provided to the OSCA on a monthly basis by each trial court. Cases Disposed represent the reported information on dispositions from July 1, 2010 through June 30, 2011 using the new resources and the status of the remaining pending cases. In addition, Desoto and Okeechobee Counties did not receive Foreclosure and Economic Recovery funding and are not included above.

² Cases Active represents those cases the court is actively working to resolve. Court administration may not be made aware immediately when a case moves from inactive to active status.

³ Cases Inactive represents cases where judicial action cannot be concluded due to extenuating circumstances. This includes, but is not limited to, cases inactive due to attorney inactivity, cases with insufficient pleadings or documentation, cases involved in mediation/settlement negotiations, and other similar matters. It is important to note that all cases at the beginning of the initiative in July 2010 were identified as inactive.

⁴ Cases Stayed includes bankruptcy cases, cases pending resolution of another case, cases where there is an agreement of the parties, and cases pending appeal.
